

DARSHAN BABARIYA

Full Stack Developer | Next.js | MERN Stack | TypeScript

darshanb2390@gmail.com • github.com/Darshan2095 • [linkedin-Darshan-Babariya](https://www.linkedin.com/in/Darshan-Babariya) • [Portfolio](#)

SUMMARY

Fresher **full-stack developer** with 5 live **Next.js applications** and one internship building production web systems. Specializes in the **MERN stack**, **Next.js**, **TypeScript**, and PostgreSQL — experienced end-to-end from designing **REST APIs** and database schemas to deploying scalable frontends on **Vercel**. Strong foundation in DSA and core CS fundamentals; seeking a full-stack or backend-leaning role at a product-focused engineering team.

EXPERIENCE

MERN Stack Intern (May 2026 – Jul 2026) - *Unified Mentor*

- Built and shipped **3+ features** for the **RentEase** using React/Next.js, Node.js, and MongoDB, reducing reported UI bugs by **~30%** through targeted refactoring.
- Designed and integrated **5+ RESTful API endpoints** for Product listing and user management modules; collaborated in a **4-person agile team** with weekly sprint reviews.
- Improved page load performance by optimizing MongoDB queries and implementing server-side rendering with Next.js, cutting average response time by **~25%**.

PROJECTS

HireAI — AI-Powered Career Platform — Next.js · PostgreSQL · Prisma · TypeScript · REST APIs [Live](#)

- Built an end-to-end AI career platform featuring resume analysis, job matching, and mock interview preparation powered by the **Gemini API**.
- Implemented resume scoring engine with skill extraction and keyword optimization — improved average match accuracy to **85%+** vs target job descriptions.
- Developed recruiter dashboard supporting **20+ concurrent job postings** with AI-based applicant ranking and analytics; integrated PDF report generation using Prisma and PostgreSQL.

MyPG — Online PG Management System — Next.js · MongoDB · NextAuth.js · TypeScript · Tailwind CSS [Live](#)

- Designed and shipped a full-stack PG booking platform with city/area-based filtering, serving across **10+ cities**; dynamic detail pages cut average search-to-booking time by **~35%**.
- Implemented **JWT-based auth** and role-based access control for PG Owners and Users using **NextAuth.js**; zero reported auth vulnerabilities across 3 months in production.
- Built **15+ reusable**, responsive UI components with Tailwind CSS and optimized client-side routing, achieving Lighthouse performance score of **90+**.

CareerDisha — Career Guidance Platform — Next.js · Node.js · MongoDB · Tailwind CSS [Live](#)

- Built a career guidance platform for J&K students covering **50+ courses**, **100+ colleges**, and scholarship listings; deployed on Vercel with zero-downtime CI/CD via **GitHub Actions**.
- Integrated admin panel and SEO-optimized pages that improved organic search ranking by **40%+**, with fully responsive UI across all device sizes.

SKILLS

Frontend: Next.js, React.js, TypeScript, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express.js, REST APIs, JWT Auth, Server-Side Rendering

Database: MongoDB, MySQL, PostgreSQL(Basic), Prisma ORM

DevOps & Tools: Git, GitHub Actions (CI/CD), Vercel, AWS (basics), Docker (basics)

Others: SEO Optimization, Payment Gateway Integration, DSA & Problem-Solving

EDUCATION

B.E. — Computer Engineering (2023 – 2027) : *VGEC — Chandkheda, Ahmedabad*

Coursework: Data Structures & Algorithms, Database Management Systems, Operating Systems, Computer Networks, Full-Stack Web Development
